I am a highly skilled front-end specialist developer with 3 years of experience in building dynamic and user-friendly web applications. I have a deep understanding of modern technologies such as the **MERN stack** and **Angular**. I have a proven track record of delivering high-quality and responsive web solutions that meet and exceed client expectations.

Professional Experience

Moonraft (UST), Bengaluru May 2022 - Present
Software Engineer

- Currently working on International Payment module for **Stanbic Bank Of Uganda**
- Realigned complete **SBG** Application for new backend API's, which involved 300+ **APIs**
- Developed features responsible for displaying of transactions & user bulk payments
- Re-engineered UI of hybrid app for **Standard Bank Group** using **Angular, Angular Material & CSS**
- Implemented **eslint & husky** by configuring various rules for clean code structure & better readability
- Supervised & led a small frontend team to enhance performance by following agile methodologies
- Worked in collaborative environment with cross geography team & regular discussions on virtual meet

Yojak, Gurugram Feb 2022 - May 2022
Frontend Engineer

- Delivered new user interface features like coupons, offers & orderform using **React Native**
- Worked on **Mixpanel** library which tracks user's interaction with the mobile application for analytics
- Re-engineered the app introducing **React Query** by replacing **Sagas** in existing code
- Assisted in UI development of *yojak* app for **iOS/Android** using React Native

Evia Global Private Limited, Mumbai Sep 2021 - Feb 2022
Assistance UI Developer

- Co-ordinated with the marketing team, **SEO** agency, and design team for complete revamp
- Delivered fully responsive web pages for **Wolken Software** & integrated few 3rd party services
- Developed designed & maintained **Wolken Care** website, new product launched by Wolken
- Fostered positive interpersonal relationships with fellow ambassadors
- Re-engineered the UI by re-writing **HTML** to meet industry standards for **SEO** & accessibility
- Enforced office policies while fostering a more productive and fun work environment

Prepleaf, Gurugram Mar 2020 - July 2021
Junior Developer, *formerly Intern*

- Participated in each step of the features & product development from ideation to implementation
- Delivered **re-usable** components and fully **responsive** web pages & integrated **RESTful APIs**
- Collaborated with back end developers and UX designers to build, test and improve the product
- Developed code to convert design wireframes into website elements under supervision
- Worked on setting up the react application with **react-redux achitecture** from scratch
- Resolved few intermittent critical bugs due to mis-management of **state & asynchronous calls**
- Used frameworks for front end development such as **React**, design software such as **figma**
